Quarterly Awards

LE Member of the Quarter DFC Joseph Barlow

In 2014, after a few years working in patrol, DFC Joseph Barlow joined the Juvenile Unit, and does an outstanding job as a School Resource Office, with support from his school's administrators. Principal Alison Portwood and Dr. Paul Curtis at Port Charlotte High have given glowing reviews commending his exemplary quality and commitment to his duties. As DFC Barlow walks through his school, many of the students want his attention and seek his guidance and feedback. All the students enjoy his wonderful sense of humor, one of his many attributes. DFC Barlow brings joy, laughter and hope to these students daily, when many of them are surrounded by negativity in other aspects of their lives. DFC Barlow has been the lead advisor for the CCSO Explorer Program for the last two years. This program builds future leaders and introduces teenagers to the law enforcement field. DFC Barlow is being commended for his overall work ethic and performance.

Team Members of the Quarter Communications Squad D

February 24th, 2016 Charlotte County experienced severe storms in the Murdock and Deep Creek areas. The National Weather Service confirmed that the storms included two tornadoes. Communications Center received 123 emergency and non-emergency calls from the citizens of Charlotte County. The calls were of downed power lines and reports of structural damage to homes, businesses and governmental buildings. Traffic crashes with serious injuries were addressed.. Dispatchers kept track of addresses that had been damaged, and made callbacks to ensure that the Fire Department or a deputy made contact. Throughout this hectic time Operators working in the 911 Center remained calm, and pulled together as a team.

Detention Member of the Quarter CDFC Jose Ortiz-Cruz

CDFC Ortiz-Cruz was recently assigned to the position of Programs Officer. Throughout the last quarter, Ortiz-Cruz has been commended numerous times. He was recognized for excelling in this new position as well as becoming cross-trained for the Support Services Supervisor and Programs Clerk positions as needed. While traveling to work, Ortiz-Cruz was on Palm Beach Blvd. in Lee County when he saw several vehicles swerve to avoid hitting a white male in the middle of the road. Ortiz-Cruz stopped, turned on his hazard lights, and approached the man. Ortiz-Cruz was able to get him off to the side of the road and wait for Lee County Deputies to arrive. The two men were both Veterans and that in common, which helped de-escalate the situation. For this, CDFC Ortiz-Cruz received a life-saver's award. CDFC Ortiz-Cruz is truly dedicated to providing the safest environment and highest level of service to improve the quality of life for all.

Lifesaving Awards

On February 19, 2016, **Deputy First Class Nicholas Reid** was dispatched in reference to a 61 year old male unresponsive and not breathing. The patient was sitting in a chair and the complainant was unable to move him to the floor to begin lifesaving treatment. DFC Reid arrived on scene and found that neighbors were there, assisting the patient to the floor. Once the patient was moved to the floor, DFC Reid immediately began CPR, as the patient was still unresponsive with no pulse and not breathing. DFC Reid continued with CPR until relieved by EMS personnel. They were eventually able to establish a pulse and the patient began breathing on his own. The patient was transported to Bayfront Health of Port Charlotte for further treatment. I commend DFC Reid for his fast response along with his timely administration of CPR, thus saving the patient's life.

On February 25, 2016, **Deputy Booker Richardson** responded in reference to an adult male not breathing. Upon arrival, Deputy Richardson made contact with a witness who told him her boyfriend was on the lanai floor and not breathing. Deputy Richardson checked for a pulse on the right side of his neck and found none. He began CPR on the man. After several minutes, he was able to obtain a strong pulse. EMS arrived and took over life-saving measures. Due to Deputy Richardson's quick response and efficient performance under pressure, the man is alive today.

Monthly Awards

LE Member of the Month DFC Kevin Montgomery

On April 8, 2016 DFC Montgomery responded to a possible drowning. A female had fallen into the canal from a bridge and was unable to get back to land. DFC Kevin Montgomery retrieved his CCSO-issued flotation device and deployed it to the female. Using the attached rope, he was able to get the female to an area for EMS. DFC Amy Martin and DFC Ronald Chandler assisted in the rescue. During the same weekend, DFC Montgomery responded to Strasburg Dr. regarding a call of a nude male in the canal. The caller said that the subject appeared to be under the influence of something and that an alligator was close by. Again, Montgomery deployed the flotation device and he was then able to pull him to the canal bank. I feel the quick decision-making of DFC Montgomery, using a tool that is not often used, prevented two possible drownings.

CO Member of the Month CO Benson Prosper

On April 8, 2016, a letter from Sgt. R. Moussa of the FMPD was received regarding the actions of a CCSO member. In the letter, Sgt. Moussa commended Detention Officer Benson Prosper for his quick-thinking and actions that ultimately led to the seizure of an illegal firearm on the streets of Fort Myers, a felony arrest. On the evening of April 3 CD Prosper called FMPD regarding a suspicious person inside the basketball court at Lion's Park. Prosper advised dispatch that he "observed a black male juvenile near the basketball court with a handgun in the right side of his waistband." As a result of CD Prosper's detailed description of the subject and location, officers were able to locate and detain the subject. The suspect said he found the Ruger 9mm and was intending on selling it for cash. This event is only partially why he has been chosen for this honor.

Support Services Member of the Month Tamberlin Albertelli

Tamberlin Albertelli began her career at the Sheriff's Office as a Jail clerk in 2007. Moving through the ranks, by 2012 she was appointed as a Training Specialist at the CCSO Training Center. In 2014 she was awarded a Risk Management Specialist position. With the completion of her Master's Degree in 2015 and PHR Certification, she was promoted to Risk Management Analyst. Her leadership and project management skills led to her appointment of the Tyler Technologies Munis Project Manager. On top of her current responsibilities, she oversaw the successful roll-out of Phase One of Munis. On June 4, 2015, she was granted full guardianship of her 73-year-old mother due to health conditions. One month later, she was granted full guardianship of her 14-year-old niece. It is easy to understand why Tamberlin is recognized as Member of the Month.

Volunteers' Corner

**Volunteers of the Month
Jay and Marilyn Westrom**

The Volunteer Service Unit presentation at a Civilian Police Academy has ignited many a volunteer career, and thus it was for Jay and Marilyn. Jay said he attended a Sarasota County CPA and enjoyed it so much that he told Marilyn we should go to one here. They did go, and now Jay drives for the Community Observation Patrol (C.O..P), and Marilyn works in the Lobby Office at the Headquarters building.

Jay proudly explains that his work provides extra eyes and ears for the deputies, generally freeing them up for more important tasks. "I might direct traffic at an accident or help with traffic control and parking at a special event. Once I was with a group driving new patrol cars back down from a Ford dealership in Bartow. I've even rounded up stray dogs."

While Jay is busy on the road, his equally proud wife is in the Lobby office, where she connects the ringing phones to the right party. And just as the windshield on Jay's patrol car frames what may need his attention, the glass window on the Lobby office wall frames a passing parade of citizens whose needs include, but are not limited to: reporting an alleged crime to a deputy; retrieving personal items from evidence; or keeping an appointment with a detective. In a chance collaboration with Jay, Marilyn happened to direct a call from a worried pet owner to Animal Control. It involved a dog Jay had rounded up. Both volunteers come from a people-oriented, customer service-type background. They feel that working with friendly people and being appreciated add up to a big reward. As Marilyn put it, "This is all about helping people and that's what I like to do."
